B&D – the industry leaders in garage doors

PANELIFT®

ICON™

B&D – it's the name Australia knows and trusts

For a new garage door, you can't go past B&D; the industry leaders since 1956. With a big reputation for trust and reliability, this makes a B&D garage door a reassuring purchase.

B&D never compromises on service or quality, so you can continue to enjoy your home and lifestyle, with a seamless experience at the touch of a button

B&D pioneered Rolling garage doors in Australia with an enviable history of innovative and patented design features. Today, B&D continues its commitment to innovation with the latest introduction of Panelift® Icon™.

B&D Panelift® Icon™ is in a class of its own when it comes to strength, durability and reliability, designed to give you and your family years of security, safety and protection.

...and for the design conscious, Panelift® Icon™ features an extensive choice of designs, colours and sophisticated finishes sure to delight even the most discerning palate.

B&D's finest steel sectional garage door

Maximum protection & security for your home and family

B&D Panelift® Icon™ stands out for being extra strong, extra durable and built to last.

- Panels come with extra strong reinforcement, rolled over safety edges for extra sturdiness, double end stiles as standard for larger doors and corrosion resistant stainless steel cables to ensure door strength and durability.
- Track curve made from glass filled polypropylene for extra strength and durability.
- Extensively engineered and tested to withstand the test of time.
- Made using quality Colorbond® steel that can stand up to the harsh Australian climate.

Your family's safety is paramount

B&D pioneered the distinctive safe Pinchfree™ hinge design, to stop fingers getting caught on either sides of the door.

In-line wheels & tracks reduce chance of finger entrapment.

Unique reinforcing end caps & rolled over safety edges protect against harm.

More free time with your loved ones

Keep maintenance to a minimum outside the recommended annual servicing schedule, thanks to superior features on Panelift® Icon™:

Springs exceed Australian standards for garage doors, stainless steel cables & factory fitted hinging system, require minimal door maintenance.

A seamless experience

Utmost comfort & reliability is synonymous with Panelift® Icon™

Unique corrosion resistant, long lasting stainless steel cables, factory fitted hinging system coupled with high cycle springs that exceed Australian standards for garage doors ensures reliability & longevity.

Relax knowing Panelift® Icon™ is backed by 5 years warranty with an optional 2 year extended warranty for that extra peace of mind.

Whether your garage is used to store valuables, or as an extended living space, Panelift® Icon™ features an efficient sealing system as standard for your added comfort.

Seals fitted to the full perimeter of the door, eliminates gaps to help prevent weather, dust, insects and debris entering. Helps to prevent hot air and draft from entering or escaping. Helps keep your garage space clean and more comfortable. Jamb and Lintel seals are co-extruded using both soft and rigid PVC material to achieve maximum sealing performance.

Enjoy the comfort of peace & quiet

Your home is your peaceful haven that's why Panelift® Icon™ is designed with added features as standard for even smoother, quieter operation.

The impressive new Smooth-Track™ system consists of twin nylon ball bearing wheels that minimise track irregularities and enhances stability. The result, an even smoother quieter operation. Best of all it comes as a standard feature on Panelift® Icon™.

Glass filled polypropylene track curve, guides the door to run easily and smoothly during operation.

Enjoy the benefits of insulation with the superior features of Panelift® Icon™

If you are serious about insulating your house, we recommend that you also consider your garage door.

The B&D **INSUL-SHIELD**™ is an optional extra that offers exceptional insulation technology and represents the smart choice for homeowners.

† Source: predictive figures from 'MATES' tests

What's unique about **INSUL-SHIELD**™

Insul-Shield™ is made using ThermaSilver™ - an innovative quality, graphite embedded EPS material which provides up to 20% more insulation compared to conventional EPS. ThermaSilver™ is strong, durable and unaffected by humidity.*

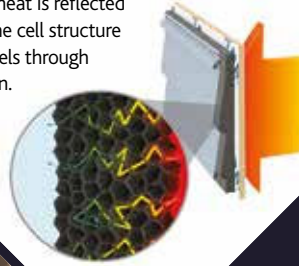

Graphite EPS Inner Core

Polypropylene Backing Sheet

Steel Outer

How Graphite Embedded EPS Insulation works

Radiant heat is reflected within the cell structure as it travels through insulation.

An efficient sealing system that maximises your insulation benefits

Seals fitted to the full perimeter of the door, eliminates gaps to help prevent weather, dust, insects and debris entering. Helps to prevent hot air and draft from entering or escaping. Helps to keep your garage space clean and comfortable.

Jamb and Lintel seals are co-extruded using both soft and rigid PVC material to achieve maximum sealing performance.

Internal appearance is equally important

Our in-line wheels and tracks, factory fitted internal hinging system and fully enclosed stiles provide a clean, uncluttered appearance on the inside of the door.

A neater, tidier appearance around the cornices especially when cornices have been cut out, thanks to the unique combo bracket that minimises structural fixing point problems.

Unlock your garage to enjoy freedom, flexibility, peace & quiet

Whether you live on a busy road, near a train station, or simply want the freedom to use your garage around the clock, insulating your garage door is the smart choice.

Insul-shield™ acts as a two way noise barrier. Helps to keep out undesirable noise for a noticeably quieter garage and helps to contain noise within the garage when compared to a non-insulated door.

Insul-Shield™ provides greater cushioning capacity that helps absorb noise impact, so great for that stray soccer ball where kids are playing nearby^.

The greater cushioning capacity also helps to reduce operation noise from the garage door^.

B&D Panelift® Icon™ offers an extensive choice of colours finishes and design features

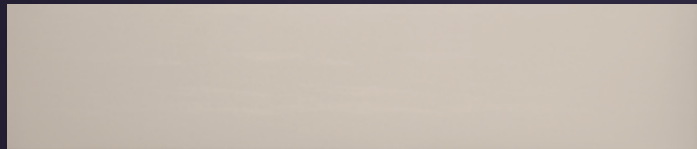

The B&D difference is in the detail

B&D ensures an even horizontal & vertical spacing of panel designs which is critical to the overall appearance of a garage door. B&D Panelift® Icon™ is tailor made to suit your garage opening perfectly, with equally sized panels. The slick aluminium strip features a lip at the base of the door – a unique aesthetic feature of Panelift® Icon™. Select from our wide range of panel designs available in either smooth or woodgrain textured finish.

NULLARBOR SMOOTH

Nullarbor Smooth is a superior flat panel design that creates an attractive clean appearance. Its distinctive minimalist look and strong sharp lines complement the most modern architecture.

NULLARBOR WOODGRAIN TEXTURED

Nullarbor Woodgrain Textured is a superior flat panel design that creates an attractive clean appearance. Its distinctive minimalist look and strong sharp lines complement the most modern architecture.

GRANGE

The Grange™ door has an attractive wide raised pattern design, for an elegant, uncluttered finish.

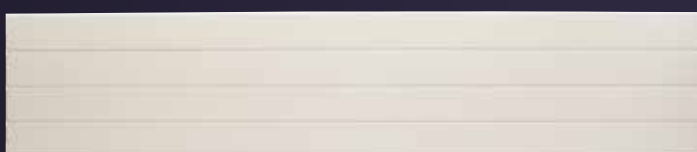

MADRID

Taking the Seville a step further, the Madrid™ is sleek, modern and contemporary in design.

TURINO

Turino™ has five ribs across each panel, giving a shiplap board effect. Spacing between ribs is fixed on the inside, and varied on the outside.

SEVILLE

Seville™ has fine horizontal ribs across each panel, to provide a slatted look. A very subdued, contemporary appearance for the modern home.

STATESMAN

The elegant Statesman™ raised pattern design adds a stylish finish to the door that will enhance the appearance of your home.

FEDERATION

For homes with a traditional feel, the Federation style adds another embellishment to the raised pattern of the popular Statesman design.

Add some light to your garage

Whether your home is modern, contemporary or federation, we have the right window for you to choose from to match your style. The below windows are also available on Seville, Nullarbor, Madrid and Turino.

B&D Panelift® Icon™ looks fabulous too...

A garage door is often the largest and most prominent feature of a home's façade, so choosing the right garage door is a crucial decision that can influence the value and aesthetics of your most prized asset.

Create an exceptional street appeal with Panelift® Icon™ featuring an extensive choice of designs, colours and luxurious finishes to help express your individuality.

Luxe™
DESIGN

A stylish range of contemporary and timeless finishes.

Create that visually stunning statement, with the shimmering effects cleverly designed to subtly change in appearance as light conditions alter throughout the day.

The sophisticated technology behind Luxe Design® delivers excellent colour retention, ensuring a long-lasting finish.

Created by Dulux® to withstand even the harshest Australian conditions.

Dulux®

An extended range of over 100 Dulux colours are also available - to make a selection go to www.duluxpowders.com.au

Choosing a colour from the largest
Colorbond® *selection is simple...*

Select from our widest range of COLORBOND® steel to match the colour scheme for your home.

COLORBOND® - Specially designed and tested to withstand the harsh Australian climate.

Love the natural appeal of real timber but don't want the hassle of ongoing maintenance?

Enjoy best of both worlds with our extensive range of finishes that cleverly mimic the look of timber on steel garage doors at a fraction of the price.

KNOT WOOD

A high quality woodgrain finish on steel

A range of eleven great finishes to choose from. Ideal solution to match the finish of your exterior fittings and outdoor furniture.

B&D Timber Coat™ range

Choose from six great, hard-wearing finishes, at an affordable price.

Compliment your choice of timber finish with a woodgrain texture

A natural looking textured effect, that mimics woodgraining pattern comes standard on B&D Panelift® Icon™.

The Perfect partner for your Panelift® Icon™

Partner your Panelift with one of the B&D Control-A-Door® openers and you will have one of the quietest automatic doors available.

B&D Control-A-Door® Prodigy™

Overhead Sectional Door Opener

When your home is your castle, Prodigy delivers smooth ultra quiet operation, stylish design and the option of controlling via your smart phone.

- Heavy Duty 1000N Motor
- Ultra quiet belt drive
- Optional smart phone control
- Soft start and stop to reduce door stress
- Long lasting automatic LED courtesy lights

Optional Accessories

Control-A-Door® Smart Phone Control Kit

Have you ever wondered if you have left the door open after leaving the house? Our Smart Phone control kit allows you to monitor and control your garage door from anywhere in the house or anywhere in the world!

Wireless Safety Beams

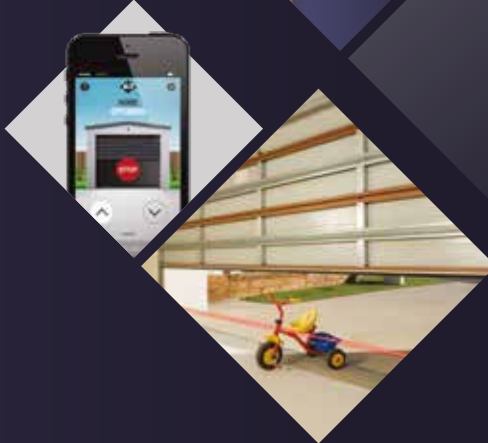

If you have young children or pets, safety beams provide added safety and security. If the beam is broken while the door is closing, it will automatically stop and reverse. B&D recommend the use of safety infra-red beams on all automatic garage doors.

5^{*} + 2^{*}
year warranty

Includes:
2 x Tri-Trans+™ Premium Remote Controls
and Wall Mount Remote Control

B&D Doors has offices servicing all states. For more details on this product or our other ranges, call **13 62 63** or visit www.bnd.com.au

Each B&D door is custom-built to fit your garage perfectly. For details on installation clearance you can download the installation guide from www.bnd.com.au or speak to your B&D representative.

¹ The process of roll forming sheet steel may cause irregularities in flat panel surfaces. Woodgrain texture improves the door aesthetics. Smooth texture not available for all sizes.

- a) Panelift® Icon™ doors, in residential applications, are covered by a 5 year warranty, conditional on correct care guidelines, as recommended in the Panelift® Icon™ door handbook. Full details of the warranty are available from www.bnd.com.au. 5 year warranty only applies to doors purchased and installed in Australia or New Zealand. Warranty only valid if warranty conditions are met.
- b) An option for extended 2 year warranty is based on Panelift® Icon™ door being partnered with a B&D Control-A-Door™ overhead sectional door automatic opener, which may be purchased through B&D direct or B&D Accredited Dealers only - please call B&D on 13 62 63 for details on participating outlets.
- c) For areas within one kilometre of a corrosive environment eg. salt air or industrial fallout, special care and maintenance are generally required for metal products. Consult B&D or your B&D Accredited Dealer for advice.
- d) The company reserves the right to make changes or improvements to the products or accessories without notice and without incurring any obligation to make similar changes or improvements to goods previously ordered. Specifications subject to change without notice.

e) B&D strongly recommend the use of Woodgrain finish on all steel sectional doors above 4900mm in width. The Smooth finish when used in conjunction with darker colours may produce irregularities in the panel finish. Please consult B&D Doors or an Accredited dealer for more information.

f) ²While BlueScope Steel Limited is our preferred supplier, steel products from other sources may also be used.

g) This sealing system is designed to fit flush openings. Where lintel is offset from jambs, speak to your B&D representative.

h) Window frame / trim colour may vary slightly to door colour.

i) Details correct at date of publication.

As with all types of garage doors, for optimal trouble free performance and safety, we recommend you have your door serviced annually.
