**Which Roller Door is right for you?
Let us help you find the right answer.**

The iconic roller door has been around for decades. In fact, B&D invented them back in 1956 and we've been perfecting them ever since. Today, 65 years after B&D introduced the first-ever Roll-A-Door, the space-saving, no-nonsense design of our roller door range makes them popular for modern or traditional homes, multiple tenancies and industrial buildings.

Browse our wide range of on-trend colours, select from our powerful automation solutions and ensure your garage is securely protected with our wide range of safety and security upgrades. For peace of mind, all B&D Roll-A-Doors are backed by B&D's 10-year Total Confidence Warranty when purchased and installed at the same time as an automatic opener, which means you can rely on your door to go up and down, over and over again for years to come.

Visit www.bnd.com.au for full details

Roll-A-Door. Neo[®]

Single garage doors

Revolutionary
B&D[®]
design

Smoothly glides open and closed

The Roll-A-Door Neo is fitted with Nylofelt strips (invented by B&D), guaranteeing quiet, trouble-free operation for years to come.

A clean, contemporary look

Roll-A-Door Neo comes in a range of COLORBOND colours, as well as B&D's exclusive Timber Coat finish, a vinyl wrap designed to mimic the natural feel of real timber.

Tough and reliable

Tested to 30,000 open-and-close cycles to ensure your door will operate correctly for years to come. Unlike others in the market, B&D use a steel drum for the curtain to roll up against, making our doors stronger and longer lasting.

Powerful opener

Designed and tested to work in unison, the B&D Power Drive opener enhances the security of your new Roll-A-Door Neo, ensuring powerful, reliable operation.

Unique Profile

Roll-A-Door Neo provides the convenience of a roller door with the look of our most popular sectional door.

Neo[®] Profile:

Qualify for B&D's market-leading 10-year Total Confidence Warranty when you purchase your new Roll-A-Door Neo door with a genuine B&D automatic opener. Visit bnd.com.au for more details

Roll-A-Door.

Single & double garage doors

When you buy a B&D Roll-A-Door, you're buying an Australian icon. Backed by engineering excellence, quality and thorough testing, B&D Roll-A-Doors are tough, secure roller doors designed to protect what matters most to you.

Able to endure the test of time

All B&D Roll-A-Doors are tested for 30,000 open-and-close cycles so they will continue to go up and down, over and over, just the like the day you first bought it.

Built strong to secure your home

Unlike other roller doors in the market, B&D use a steel drum for the curtain to roll up against, making our doors stronger and longer lasting.

Quiet, easy operation

Nylofelt running strips (invented by B&D) are fitted on both sides of the Roll-A-Door for quiet, seamless operation day after day, year after year.

Smooth operator

The unique 'mini-groove' design ensures smooth operation. Roll-A-Door is engineered for superior strength, using unique 'brake-press' technology which stamps a rigid structural pattern into each door.

Qualify for B&D's market leading 10-year Total Confidence Warranty when you purchase a genuine B&D automatic opener. Visit bnd.com.au for more details

Traditional double garage doors feature a deeper, rounded and more rigid profile. This is particularly suitable for high usage applications and where an extra strong door is required. Our Traditional profile wideline door (R2W) has a 0.5mm thickness steel to add strength to the door, and also includes Weatherseal with deep cushioning that helps to prevent the entry of water and leaves. Springs are tested to 30,000 open and close cycles.

Our traditional low profile model R2L has a 0.4mm thick steel curtain and requires less headroom than our traditional wideline model R2W meaning it can fit into tighter spaces.

Roll-A-Door comes in two profile options, Deluxe™ and Traditional, to complement every style of home. Both profiles offer the same strength, security and reliability that you have come to know and trust from the B&D Roll-A-Door.

- The Deluxe™ profile is available for both single and double roller doors.
- The Traditional profile is **ONLY** available for double roller doors.

Deluxe™ Profile:

Traditional Profile:

Qualify for B&D's market leading 10-year Total Confidence Warranty when you purchase a genuine B&D automatic opener. Visit bnd.com.au for more details

Rollmasta®

Single & double garage doors

Feature colour
DOVER WHITE

B&D's Rollmasta is a top-quality, cost-effective roller door solution for homes, sheds and commercial properties. Strong, secure and sleek, every Rollmasta door is made to measure to suit your exact needs and requirements, resulting in an affordable, durable door from a brand you can trust.

Keep the outside, out

Steel door stops and a waist-high centre lift lock – with double-bar locking action – provide an extra level of security while weather seals prevent dust, leaves and debris from entering the garage.

Smooth and quiet operation

Nylon braided running strips help the door roll up and down smoothly and quietly and the door springs are tested for 15,000 cycles, ensuring strength and durability year after year.

Broad range of colours

Sturdy COLORBOND steel (B&D's preferred supplier) protects against Australia's harsh and varied climate. Available in a wide range of colours, the Rollmasta can effortlessly be coordinated with any colour scheme or style of home.

Qualify for B&D's market leading 10-year Total Confidence Warranty when you purchase a genuine B&D automatic opener. Visit bnd.com.au for more details

Feature colour
SHALE GREY

Rollmasta® is available in the following profile. You can also choose to add in a Lock Kit or Centre Lift Handle for added security and ease of use.

Rollmasta® Profile:

When coupled with a genuine B&D® Controll-A-Door® opener and registered online your B&D® Roller Door is eligible for our 10 Year Total Confidence Warranty (Standard Roll-A-Door® and Rollmasta® warranties are 5 and 3 years respectively - visit www.bnd.com.au for full details).

Step 4: Select your automation

Australians have trusted B&D's garage door automation products for decades. Our latest B&D Power Drive builds on our rich heritage by combining smooth and reliable operation with a range of features that help protect your family and belongings.

Key Features

- Powerful yet quiet 600N motor
- Long lasting LED automatic courtesy lights
- Soft start and stop to reduce door stress
- 7 Year/20,000 Cycle warranty (up to 10 Years with the Total Confidence Warranty, only if purchased with an eligible B&D door)
- Smart Phone capable (optional upgrade)
- Uses our patented Tri-Tran+ remote control technology to provide extra protection against hacking and code grabbing devices.

All opener options include:
2 x Premium Remote Controls
and Wall Mount Remote Control.

Smart Phone Control Kit

**TECH
tip**

Have you ever left the house in the morning and thought, “**Did I remember to close the garage door?**”. The kit allows you to monitor and control your garage door while you are at work or even on holidays from your compatible smart phone*.

It is available as an optional accessory with the opener.**

*Phone not included.

**The use of Safety Beams are required with the Smart Phone Control Kit.

Unleash the power of your door with Smart Phone Control

CUSTOMISATION

The B&D® App can be customised to suit your lifestyle. From partial opening modes to restricting door access times, your protection and security is a priority.

ACTIVITY LOG

You can view usage history on the App so you know who has operated your garage door and when.

YOUR SILENT ALARM

The B&D® App features real time notifications alerting you whenever your door is operated, opened for an extended period of time or when your opener is in need of a service.

Step 5:

Choose your premium upgrades

Safety & Security

WIRELESS SAFETY BEAM

If you have young children or pets, safety beams provide added safety and security. If the beam is broken while the door is closing, it will automatically stop and reverse. B&D® always recommend the use of safety on all automatic garage doors. It is mandatory to have safety beams installed if the door has smart phone connectivity.

B&D CAMERA

Control and view who comes and goes with B&D's camera and smart phone App. By integrating a B&D camera with a B&D Smart phone control kit you can easily open the garage door, communicate with visitors and monitor your home.

The Elements

HIGH WIND ROLL-A-DOOR®

Our High Wind Roll-A-Door® provides added strength, security and protection ensuring your door is held captive in the door track during high wind situations. Suitable for all applications, they are compliant with National Construction Code High Wind Requirements.

BRISTLE SEALS

Bristle Seals fill the gaps around the door, acting as an effective barrier against dust, sand or leaves entering the garage, creating a cleaner environment. This is particularly important when the garage is used as a living area. Bristle seals are not suitable for use as protection against bush fires.

*Subject to cellular and WIFI connection and availability. Note - Kit includes Smart Hub & accessories. Phone not included.

Warranties

As standard, Roll-A-Door® and Rollmasta® warranties are 5 and 3 years respectively (terms and conditions apply). When coupled with a genuine B&D® opener and registered online, your Roll-A-Door® or Rollmasta® door is eligible for our 10 Year Total Confidence Warranty*.

Deluxe™ / Traditional

When registered online your Neo® door is eligible for our 10 Year Total Confidence Warranty
