Panelift® Seville
in Colorbond® Monument

Safe as can

Behind your garage door are the things that matter to you most, the things that make your house a home. That's why B&D garage doors don't just close, they lock securely shut. When purchased together, B&D doors and openers are backed by a 10-Year Total Confidence Warranty*, so you can rest assured the largest entrance to your home is secure.

What started as a steel fabricating business in the backyard of company founders Arthur Byrne and Paul Davidson in 1946 is now at the forefront of garage doors and automation. Years of hard work helped refine the design of Australia's first roller door. In 1956, the B&D Roll-A-Door was launched and the rest is history.

With over 65 years of innovation and engineering excellence, B&D's range of garage doors and access control systems are tough, smart and reliable. They combine cutting-edge security solutions, beautiful design and proven dependability.

That's what makes B&D Australia's original and most trusted** garage door brand.

*10-year Total Confidence Warranty applies when a B&D garage door and opener are purchased and installed at the same time. T&Cs apply.
**B&D was the most trusted and most reliable garage door brand, based on Brand Perception survey conducted in 2024 (n=886)

Panelift® or Panelift® Icon™ ?

Panelift®

When B&D first introduced Panelift® doors, the standard was set for strong, safe and reliable operation. Today, it's still the go-to garage door that homeowners depend on.

The tried-and-tested features of Panelift® doors are designed to perform day in, day out for years. Smooth and quiet custom-designed door guides guarantee optimal operation, while interior and exterior pinch-free panels ensure fingers are kept safe.

With an extensive choice of stunning COLORBOND® colours and profile design options, a Panelift door fits beautifully within any style of home.

Panelift® Icon™

With B&D's Panelift® Icon™, you get all the best features of Panelift®, but with many exciting additions. Panelift® Icon™ comes equipped with Auto-Lock™, which automatically locks your garage door with a wireless, heavy-duty locking bolt for peace of mind that your home is safe and secure.

You'll also get B&D's exclusive 10-year Total Confidence Warranty* and a wider range of colours and profiles to choose from.

**Let us help you
create the perfect
door for your home.**

- Explore and decide on the unique features that best suit your lifestyle needs.
- Select the panel profile (door design) to complement your home's style and aesthetics.
- Choose from a wide range of colours to transform your B&D garage door.
- For enhanced safety, choose your security options and you're all set to say hello to the greatest garage door in Australia.

*10-year Total Confidence Warranty applies when a B&D garage door and opener are purchased and installed at the same time. T&Cs apply.

*Extra costs apply

Panelift® is B&D's most popular sectional garage door, setting the standard for strong, safe and reliable operation.

Made from sturdy COLORBOND® steel and offering smooth, quiet operation, it's the go-to garage door for strength and reliability.

Modern design, maximum strength

Each panel is made with reinforced COLORBOND® steel and has been tested to withstand Australia's harsh and varied climate.

Increased safety as standard

Every Panelift door features pinch-free hinges to protect fingers from being caught. When a B&D Panelift® door is paired with a B&D opener, our doors are even safer with automatic reverse which prevents the garage door from closing on an obstruction.

Quiet and dependable

Custom-designed guides ensure the door runs seamlessly and smoothly while opening and closing, which is incredibly important if you work shifts and arrive home late or have children sleeping above or near the garage.

Panelift[®] Icon[™]

Panelift[®] Icon[™] offers all the most-loved features of B&D's Panelift[®], with some exciting additions. Every Panelift[®] Icon[™] comes with Auto-Lock[™], which automatically locks your garage door with a heavy-duty deadbolt, so you can rest assured your home is safe and secure every time it closes.

Panelift[®] Icon[™] comes in a range of stunning COLORBOND[®] colours, Sheer Panel Collection[®] options and Knotwood[™] collection.

Panelift[®] Icon[™] Nullabor
in COLORBOND[®] Dover White

Superior home protection

Featuring B&D's unique Auto-Lock[™] technology, Panelift[®] Icon[™] is the most secure sectional door on the market if you want to protect your home.

Safety as standard

Every Panelift[®] Icon[™] door features pinch-free hinges to protect fingers from being caught, while 360° perimeter weather seals mean dust and insects are kept out.

Durable performance

Corrosion-resistant stainless-steel cables deliver long-lasting performance in all conditions and our customised balance springs are tested for up to 20,000 open-and-close cycles.

Extensive range of colour and finish options

Choose from an extensive selection of colours including the premium range of Sheer Panel Collection[®] and Knotwood[™] finishes. Designed to integrate with and complement the clean, flush lines of modern homes.

COMES WITH AUTO-LOCK[™]

Heavy-duty deadbolt system, so when your garage closes, it automatically locks shut.

COLORBOND[®], Sheer Panel Collection[®] and Knotwood[™] steel colours are represented as accurately as possible, but we recommend viewing an actual product sample before purchasing, as light conditions and printing may affect colour tones. We suggest consulting a B&D mobile showroom or visiting your local B&D Dealer to see a sample. Colour and product availability may differ depending on your location, please refer to your local B&D dealer for more information. *A surcharge applies to these colours.

Profiles & Textures.

Profiles

Nullarbor

Seville

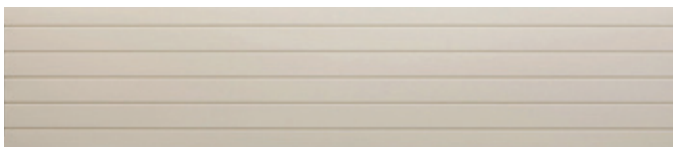

Statesman

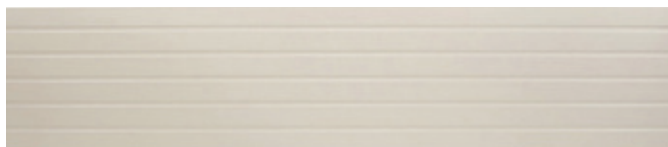

Grange

Only available on  Panelift[®] Icon.

Madrid

Turino

Textures

Smooth

Smooth is a traditional, modern smooth finish on the steel. Nullarbor profile with Smooth is only available on Panelift[®] Icon™.

Woodgrain

Woodgrain creates a woodgrain like texture over the profile of the door.

Please note: All flat, smooth panel profiles can exhibit signs of oil canning under certain light conditions. It is typically more visible on darker colours. Oil canning is not a structural defect but simply an aesthetic issue. With Grange and Statesman profiles – embossment sizes vary slightly depending on manufacturing location. Nullarbor Smooth doors are not available with powder coating or insulation. Please take these factors into account when selecting your profile and texture.

Automation.

There's huge value in installing a new garage door together with an opener. The ability to drive in and out of your garage without having to get out to open or close the door is a convenience many simply can't do without.

Did you know it also makes your garage safer and more secure? B&D openers help you protect your home so you can worry about the things that really matter.

	Secure	Smart	Smart Pro
AUTO-LOCK™	Optional	Optional	Optional
FAST OPENING SPEED	✓	✓	✓
POWERFUL OPENER	1100N	1100N	1400N
OPERATION DURING POWER OUTAGE	Optional	Optional	✓
SMART PHONE CONTROL	Optional	✓	✓
WIRELESS SAFETY BEAM	Optional	✓	✓

All opener options include: 2 x Premium Remote Controls and Wall Mount Remote Control.

Options.

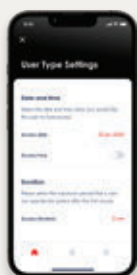

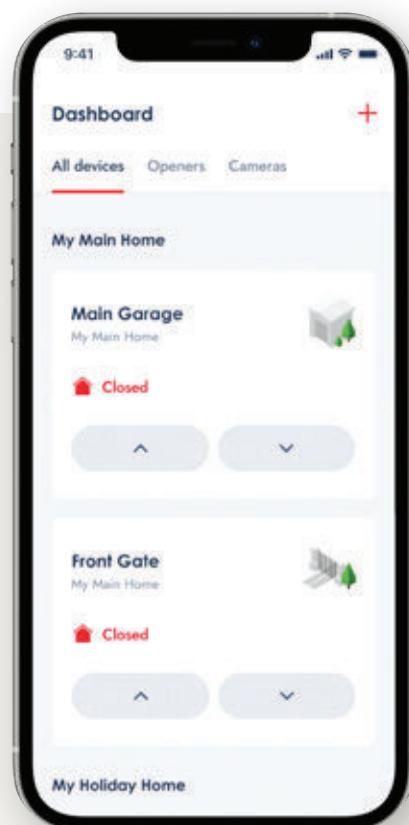

Wireless Safety Beams.

If you have young children or pets, safety beams provide added safety and security. If the beam is broken while the door is closing it will automatically stop and reverse. B&D always recommend the use of safety infra-red beams on all automatic garage doors.

Smart Phone Control Kit.

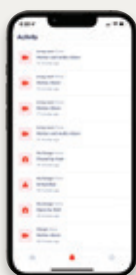

Unleash the full potential of your door

Have you ever left the house in the morning and thought: "Did I remember to close the garage door?" The Smart Phone Control Kit allows you to monitor and control your garage door while you are at work or even on holidays from your compatible smart phone. The use of Safety Beams are required with the Smart Phone Control Kit.

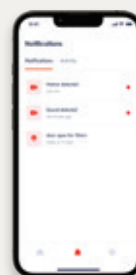

CUSTOMISATION

The B&D App can be customised to suit your lifestyle. From partial opening modes to restricting door access times, your protection and security is a priority.

ACTIVITY LOG

You can view usage history on the App so you know who has operated your garage door and when.

YOUR SILENT ALARM

Features real time notifications alerting you whenever your door is operated, opened for an extended period of time or when your opener is in need of a service.

Door upgrades.

Windows

Ideal for a Hamptons-inspired home, stylish Plain or Stockton windows can be added to Statesman and Grange profiles.

GRANGE WINDOW DESIGN

Insulation

Insulation acts as a barrier to heat flow and is essential for keeping your home warm in winter and cool in summer. It also reduces sound transfer to other parts of your home, which is helpful if you have young children or a bedroom above the garage. Insulation is applied on the internal side of the garage door, which provides a cleaner, tidier finish to the inside of your garage.

Weather upgrades.

Storm-Shield®

Purposely developed and engineered to meet building code requirements for high-wind regions of Australia. Storm-Shield® has been specifically designed and independently tested, ensuring your home is storm ready in Region C2 (North Australian coast). Storm-Shield® offers the modern design and security features of a traditional B&D sectional door with additional safety and protection features to ensure it stands strong during extreme conditions.

BAL-Maze®

If you live in a bushfire-prone area, it's crucial that your home is properly prepared should disaster strike. B&D offers BAL-Maze® as an essential tool to help protect the things most important to you. An upgrade option within the Panelift® range, the BAL-Maze® Panelift® sectional garage door has been designed and developed to prevent flying embers and burning debris from entering your home. It's the only garage door system in Australia to have a CSIRO-tested grading for bushfire protection.

Reliable. Beautiful. Secure.
